Assessors should keep the following general principles in mind when designing and conducting assessments against this unit standard: focus the assessment activities on gathering evidence in terms of the main outcome expressed in the title to ensure assessment is integrated rather than fragmented. The simple present tense is a form of verb used to express facts, habits, or events that occur at the present time. It is the most frequently used form of verb in English. A sentence cast in the passive voice will not always include an agent of the action; for instance, if a gorilla crushes a tin can, we could say the tin can was crushed by the gorilla, but a perfectly good sentence would leave out the gorilla. The tin can was crushed. Also, when an active sentence with an indirect object is recast in the passive, the indirect object can take on the role of the agent. For example, if Jack and Jill have you ever present perfect a lesson, Adam Sandler has ups and downs. He has an opportunity here to show his acting skills in the roles of twins performing the scenes of both brother and sister. One of the first decisions for a writer beginning a new story is the choice of narrative tense: will the story be a look into past events or will it race through the present? The writer must decide what is the when of the story. I've seen plenty of comments and recommendations about narrative.
